BOARD POLICY

No. 4118.234(a)

**RE: Psychotropic Drug Use
Personnel - Certified**

Approved: October 2001

Revised: June 9, 2015

Psychotropic Drug Use

The Board of Education prohibits all school personnel from recommending the use of psychotropic drugs for any student enrolled within the school system. For purposes of this policy, the term “recommend” shall mean to directly or indirectly suggest that a child use psychotropic drugs.

Psychotropic drugs are defined as prescription medications for behavioral or social-emotional concerns, such as attentional deficits, impulsivity, anxiety, depression and thought disorders and includes, but is not limited to stimulant medications and anti-depressants.

Notwithstanding the foregoing, school health or mental health personnel, including school nurses or nurse practitioners, the District’s Medical Advisor, school psychologists, school social workers, and school counselors may recommend that a student be evaluated by an appropriate medical practitioner.

Nothing in this policy shall be construed to prohibit a Planning and Placement Team (PPT) from discussing with parents and/or guardians of a child the appropriateness of consultation with, or evaluation by, medical practitioners with the consent of the parents and/or guardians of a child.

The Board recognizes that the refusal of a parent or other person having control of a child to administer or consent to the administration of any psychotropic drug to the child shall not, in and of itself, constitute grounds for referral to the Department of Children and Families (DCF), unless such refusal causes such child to be neglected or abused, as defined in C.G.S. 46b-120.

The Superintendent of Schools or his/her designee shall promulgate this policy to district staff and parents/guardians of students annually and upon the registration of new students.
